SAM4s

Exceptional POS Capability

Using robust integrated SAM4pos software, your authorized SAM4s dealer can design your custom application by choosing from an array of features available for food and retail operators.

• Casual Dining • Family Style Restaurants • Bar/Restaurants
• Quick Service Restaurants • Sandwich • Bakery • Pizza
• Coffee • Taco • Hamburger • Ice Cream and Yogurt • Deli's
• Specialty Foods • Specialty Gourmet • Liquor Stores
• Beer/Wine • Gift Shops

On Screen Manager and Program Access

Access manager and programming functions intuitively through menus and on-screen options. Programming and editing can be done without referring to manuals. Managers can easily view report data and quickly adjust to changing conditions.

Standard Network Support

SAP-530 series and SAP-4800II can be connected in a fast and reliable Ethernet-style network. Networking supports report data consolidation, ECR programming, payment authorizations, polling, plus printer and video requisition routing.

Remote Polling

Poll by dial-up or Ethernet connection. Companion software for your PC, supports your application by first polling sales information from individual terminals, terminal networks or multiple remote locations. Provides item file management and inventory functions. You can easily add or delete menu items and send new menu screens to your restaurants for daily, weekly or seasonal promotions.

Labels printed on the SNBC BTP-L520 thermal desktop label printer shown actual size.

Highly Configurable Kitchen Printer Requisitions

Kitchen requisition printed on the SAM4s Ellix 40 80mm receipt printer shown 75% actual size.

Insure Speed, Security and Efficiency with Integrated Credit, Debit and Gift Card Payments

Electronic payment sales can be processed in a single step at the SAM4pos with an optional DataTran™ integrated payment appliance.

• SAM4pos is electronic payment and gift card processing ready – no additional software modules are required.
• Free gift card processing is available through selected processing partners.
• EMV Transactions can be processed quickly using the latest IPTran-LT™ or TwinTran™ technology and a persistent internet connection.

Popular POS Workstation Options

Each SAM4pos can support up to four devices including cash drawer, kitchen printer, slip printer, coin dispenser, scale, pole display, kitchen video, video surveillance, UPC scanner, liquor dispenser or DataTran™ integrated credit.

Enjoy the advantages of scanning – price control, item movement reporting and labor savings.

Accurately send weights to SAM4pos for price calculation. SAM4pos can automatically subtract tares and report item sales by weight.

Improve productivity and reduce cash handling time. Increased accuracy and faster throughput will provide a prompt return on investment.
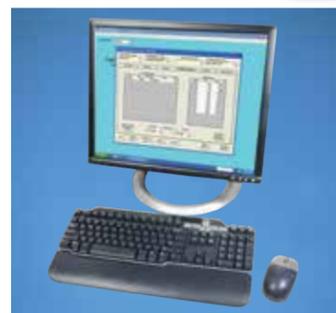

Visually promote products and specials with the SAM4s ML700 7″ graphic remote customer display.

The SAM4s Ellix 40 high speed thermal printer can print requisitions for your kitchen or preparation area.

The E-PAD Video Controller provides a powerful way to speed service and increase employee productivity.

By controlling portion sizes and locking down inventory, Berg Liquor Control Systems have increased revenues, profits, simplified reporting and maximized cash accountability.

Video surveillance can be targeted and activated for selected cash register and POS terminal activity.

SD Card Utilities include program Save/Load, report or screen capture, firmware updates & graphics uploading.

Connect a keyboard to make programming quick and easy; or use a USB stick to Save/Load programs.

Poll your terminal from a local or remote PC using SAM Software or PC/Poll.

Print highly configurable customized labels using the SNBC BTP-L520 thermal desktop label printer.
